Computer Technician Certification Information

The **Computer Technician Certificate** offers students the opportunity to earn a credential demonstrating computer technician competencies. This certificate consists of the core skills that students need to achieve the industry A+ and Security+ certifications. In addition, this certificate will provide a way for professionals currently in the industry to update their technician skills and for new students to show progress in the CIT program.

Upon completion of this Certificate program, the graduate can:

1. Use computer terminology correctly.
2. Resolve technical questions using existing documentation.
3. Explore computer hardware and software.
4. Employ basic diagnostic tools to identify and solve hardware and software problems in multiple operating systems.
5. Use network applications effectively.
6. Describe communication protocols for computer networks.
7. Implement basic computer system security measures.

Notes:

1. It is the responsibility of the student to notify their Advisor of changes they have made to their class schedule. Failure to do so could result in a delayed graduation date or ineligibility for graduation. (*Examples: Online registration, drop/add, or change of class sequence.*)
2. **CIT 105 AND a Level I Networking Course (CIT 160 or 161) must be completed before enrolling into CIT 180; OR Consent of Instructor.**
3. Certificates may also be completed prior to or while earning an AAS degree. (Refer to MCTC's CIT Program Website) .
4. Students may only use a course with a grade of "C" or higher to fulfill a core or track graduation requirement or a certificate requirement.
